Physician's Center for Beauty was established in 2005 by a group of prominent Louisville physicians and entrepreneurs. We have quickly become the local leader in aesthetic spa services, non-invasive cosmetic procedures, and cosmetic plastic surgery. Located in The Shelbyville Road Plaza in the heart of St. Matthews, we are conveniently located for scheduled appointments or walk-in services.

We combine the luxury, comfort, and pampering of a day spa with the experience and expertise of medical professionals dedicated to outstanding cosmetic results in facial aesthetics and flawless skin. Physician's Center for Beauty's experts in skin care, plastic surgery, laser procedures, and aesthetic treatments work together to provide excellent cosmetic results with minimal downtime.

Physician's Center for Beauty provides the latest skin care treatments in a convenient and intimate setting under the direction of a board certified plastic surgeon with an expertise in aesthetics and lasers. Our approach is unique in that we perform a comprehensive evaluation of each individual's complexion and skin care needs and then provide a personalized recommendation and treatment plan.

As medical director of Physicians Center for Beauty, Dr. Sean Maguire performs a full range of cosmetic surgery. With extensive plastic surgery training and a broad range of clinical experience, he brings exceptional artistry to his cosmetic surgery patients. With a keen attention to detail, Dr. Maguire prides himself on natural-looking results. Procedures performed include face and neck lift, brow lift, eyelid surgery, rhinoplasty (nose reshaping), breast lift, reduction and augmentation, liposuction and tummy tuck. All surgery is performed at an accredited outpatient surgery center with board-certified anesthesiologists.

The ever-evolving field of injectable cosmetic treatments offers less invasive options for patients seeking an improved appearance without surgery. Dr. Maguire provides Botox® and Dysport® treatments, as well as dermal filler injections including Artefill®, Voluma®, Juvederm®, Perlane®, Radiesse®, and Restylane®. He also provides complimentary consultations for cosmetic surgery.

Physician's Center for Beauty provides the latest and most effective technology in aesthetic lasers. The skilled professionals in our Laser Center use state-of-the-art lasers for hair removal, treatment of pigmentation, facial skin resurfacing, vein treatments, and skin tightening. Recent advances in non-invasive body contouring technology have allowed many patients to enjoy the benefits of fat reduction and skin tightening without surgery or downtime. With our on-site physician, we bring each client the most effective treatment, emphasizing shorter recovery time and dramatic results in a safe and comfortable environment.

Whether you're enjoying one of our aesthetic services like a relaxing massage, a chemical peel, one of our customized facials, or having a non-invasive cosmetic procedure performed, you can rest assured that your privacy and comfort are our main concerns.

COOLSCULPTING®Based on Number of Treatments

CoolSculpting® is the coolest, most innovative, non-surgical way to lose those annoying bumps and bulges of stubborn fat. This revolutionary technology targets and cools unwanted fat cells in the selected area to induce a noticeable, natural-looking reduction in fat bulges.

Unlike most other methods of fat reduction, CoolSculpting involves no needles, surgery, or downtime. Patients often spend procedure time reading, working on their laptops, or simply relaxing.

It's safe, FDA-cleared and effective. Results look natural and can be seen as early as three weeks following treatment, with the most dramatic results after one to three months.
