Beauty is our Passion

Physician's Center for Beauty was established in 2005 by a group of prominent Louisville physicians and entrepreneurs. We have quickly become the local leader in aesthetic spa services, non-invasive cosmetic procedures, and cosmetic plastic surgery. Located in the Shelbyville Road Plaza in the heart of St. Matthews, we are conveniently located for scheduled appointments or walk-in services.

We combine the luxury, comfort, and pampering of a day spa with the experience and expertise of medical professionals dedicated to outstanding cosmetic results in facial aesthetics and flawless skin. Physician's Center for Beauty's experts in skin care, plastic surgery, laser procedures, and aesthetic treatments work together to provide excellent cosmetic results with minimal downtime.

Physician's Center for Beauty provides the latest skin care treatments in a convenient and intimate setting under the direction of a board certified plastic surgeon with an expertise in aesthetics and lasers. Our approach is unique in that we perform a comprehensive evaluation of each individual's complexion and skin care needs and then provide a personalized recommendation and treatment plan.

As medical director of Physician's Center for Beauty, Dr. Sean Maguire performs a full range of cosmetic surgery. With extensive plastic surgery training and a broad range of clinical experience, he brings exceptional artistry to his cosmetic surgery patients. With a keen attention to detail, Dr. Maguire prides himself on natural-looking results. Procedures performed include face and neck lift, brow lift, eyelid surgery, rhinoplasty (nose reshaping), breast lift, reduction and augmentation, liposuction and tummy tuck. All surgery is performed at an accredited outpatient surgery center with board-certified anesthesiologists.

The ever-evolving field of injectable cosmetic treatments offers less invasive options for patients seeking an improved appearance without surgery. Dr. Maguire provides Botox® and Dysport® treatments, as well as dermal filler injections including Bellafill®, Voluma®, Juvederm®, Radiesse® and the Restylane® family of products. He also provides complimentary consultations for cosmetic surgery.

Physician's Center for Beauty provides the latest and most effective technology in aesthetic lasers. The skilled professionals in our Laser Center use state-of-the-art lasers for hair removal, treatment of pigmentation, facial skin resurfacing, vein treatments, and skin tightening. Recent advances in non-invasive body contouring technology have allowed many patients to enjoy the benefits of fat reduction and skin tightening without surgery or downtime. With our on-site physician, we bring each client the most effective treatment, emphasizing shorter recovery time and dramatic results in a safe and comfortable environment.

Whether you're enjoying one of our aesthetic services like a relaxing massage, a chemical peel, one of our customized facials, or having a non-invasive cosmetic procedure performed, you can rest assured that your privacy and comfort are our main concerns.

He then completed a residency in Plastic and Reconstructive Surgery at the University of Cincinnati and a fellowship in Aesthetic Plastic Surgery and Laser Surgery in Hawaii.

With his unique training and experience, the hands of a trained sculptor and a keen eye for aesthetics, Dr. Sean Maguire brings unparalleled artistry to his patients to enhance and sculpt the breast, body, and face. Surgery is performed by Dr. Maguire at an accredited outpatient surgery center.

Procedures performed include:

- > Blepharoplasty (Eyelid Surgery)
- > Face Lift
- > Brow Lift
- > Rhinoplasty (Nose Reshaping)
- > Breast and Body Contouring
- > Liposculpting
- > Laser Skin Resurfacing

BOTOX®/DYSPORT® 15 minutes

\$10/\$4.50 per unit

This is a quick and minimally invasive procedure that is used to temporarily relax the muscles that cause moderate to severe lines and wrinkles. Commonly treated areas are the glabellar frown lines between the eyes, forehead lines and crows feet.

INJECTABLE FILLERS

45 minutes

We only use safe, FDA approved dermal fillers to replace lost volume and restore a natural, long-lasting, youthful look. They can also correct smile lines, "marionette" lines, and plump lips. Schedule a consultation with our doctor today to discuss which dermal filler will help you achieve your personal beauty goals.

KYBELLA™

Based on Number of Treatments

Kybella (deoxycholic acid) injection, contours and improves the appearance of moderate to severe submental fullness, sometimes referred to as "double chin."

Submental fullness can impact a broad range of adults, including both men and women, and can be influenced by several factors such as aging, genetics and weight gain, and is often resistant to diet and exercise alone. According to a survey by the American Society for Dermatologic Surgery, nearly as many consumers are bothered by submental fullness (68%) as by lines and wrinkles around the eyes (71%).

When injected into subcutaneous fat, KYBELLA™ causes the destruction of fat cells. Once destroyed, those cells cannot store or accumulate fat. Talk to Dr. Maguire to determine if KYBELLA™ might be right for you.

ULTRAPULSE LASER RESURFACING WITH CO2

120 minutes

\$3,000 with products

Transform your skin using the latest laser technology. Turn back the clock on photo damage, lines, wrinkles, texture and uneven pigment in one treatment. This non-surgical procedure is performed by Dr. Sean Maguire to dramatically improve the condition of your skin and reveal a more youthful appearance.

IPL SKIN REJUVENATION (PHOTOFACIAL)

30 minutes

This light-based treatment deals with pigmentation (Melasma), age spots, facial veins, and diffuse redness and rosacea, usually with a series of treatments.

COOLSCULPTING®

Based on Number of Treatments

CoolSculpting® is the coolest, most innovative, non-surgical way to lose those annoying bumps and bulges of stubborn fat. This revolutionary technology targets and cools unwanted fat cells in the selected area to induce a noticeable, natural-looking reduction in fat bulges. Unlike most other methods of fat reduction, CoolSculpting involves no needles, surgery, or downtime. Patients often spend procedure time reading, working on their laptops, or simply relaxing. It's safe, FDA-cleared, and effective. Results look natural and can be seen as early as three weeks following treatment, with the most dramatic results after one to three months.

Ultherapy treatment

Ultherapy treatment is the only non-invasive procedure FDA-cleared to lift skin on the neck, under the chin and the eyebrows. Now, also the only non-invasive treatment specifically FDA-cleared to improve lines and wrinkles on the décolletage. Ultherapy can help you achieve a fresher, more youthful look from brow to chest.

—• Age Healthier and Live Happier with BioTE Medical Natural Hormone Optimization Therapy for Men and Women

If you or someone else is experiencing any of these symptoms, chances are they are a good candidate for Bio-Identical Hormone Replacement Pellet Therapy:

- Lack of energy and Fatigue during the day
- Difficulty sleeping at night
- Reduced mental focus and memory
- Moody, anxious, or depressed
- Weight gain including increased fat around mid-section
- Inability to lose weight regardless of healthy diet and exercise
- Decreased muscle strength
- Muscle or joint pain
- Loss of libido and or sexual performance
- Vaginal dryness
- Painful sex
- Loss of drive and zest for life
- Hot flashes and night sweats
- Poor skin quality, skin laxity, lines and wrinkles

Your Hormones are the foundation of good health and how well you are aging.

Hormones are the messengers to all other cells in the body and when optimized, you can expect to experience longevity, outstanding quality of life as well as protect against age related disease such as Alzheimer's, Dementia, Osteoporosis, Diabetes, Muscle loss, Cancer, Breast Cancer, Heart Disease and more.

You have a choice when it comes to Hormone Therapies:

Most people are familiar with Synthetic Hormone Therapies. These medications are often prescribed by our Medical professionals. These therapies include Premarin, PremPro, Provera, Androgel, to name a few. Synthetic Hormone Therapies address the symptoms of low hormone production. They are not getting to the root cause of why you are feeling lousy in the first place. Synthetics also have many adverse side effects associated with long-term use. Some of the side effects include increased risk for strokes, blood clotting, cancer, breast cancer and heart disease. Synthetic Hormones are typically administered orally, by injection, patches and creams. These methods are not ideal as it is not a natural way to deliver hormones to the body. These methods require the hormone to be processed by the liver or digestive system. The result is a roller-coaster ride in terms of symptom relief.

BioTE Natural Hormone Optimization Therapy gets to the root cause of why you are symptomatic in the first place, by restoring your hormones with an FDA approved Bio-Identical Pellets that exactly match your own human hormones at the molecular level. There are no long-term side effects associated with Pellet therapy, only long-term relief from symptoms and enhanced well-being and quality of life.

The pellets are smaller than a grain of rice and are painlessly placed under the skin, delivering the right prescription of hormones for you 24 hours a day, 7 days a week for several months.

Pellet Therapy has been in existence since 1939 and was introduced in the United States by a doctor from Europe in-order to treat women who had undergone radical hysterectomies to restore their hormonal balance. It expanded to men and women who were experiencing symptoms of low hormone production as they entered menopause and andropause stages of their lives.

Pellet Therapy has decades of research that supports its' safety and effectiveness.

Why have I not heard of this?

Shortly after Pellet therapy was successfully introduced, the pharmaceutical companies developed their own therapies to compete. The pellet, being a non-synthetic plant based substance could not be patented, therefore Big Pharma created their own synthetic formulas so they could be patented and marketed under a brand name.

Many medical practitioners are not aware of Natural Therapies as they are not taught in medical school and the money is behind the Synthetic formulations.

BioTE Medical

Physician's Center for Beauty has partnered with BioTE Medical and is part of a network of over 1500 medical practitioners who offer Natural Hormone Optimization Therapy. Over 50,000 patients are pelleted monthly.

BioTE is the right hormone. It is plant based, non-synthetic and is an identical match to your own human hormones. It is the right dosing, as it is an individualized approach based on your blood panel, symptoms and health history. It is the right delivery system, via pellet that is painlessly placed under the surface of the skin, delivering hormones directly into the blood stream 24/7 for several months.

How do I start Aging Healthier and Living Happier?

The first step is to schedule a consultation with Optimal Aging Specialist, Marilyn Cannon. She will help you determine if this is the right therapy for you.

MICRODERMABRASION *45 minutes*

\$100 or \$400 for a package of 5

This is medical grade; non-invasive form of skin resurfacing that exfoliates skin, evens out skin tone, minimizes the appearance of pores, and diminishes fine lines. A jet of fine crystals gently removes the top layer of skin, which is then vacuumed away along with dead and damaged skin cells. This treatment helps to boost collagen and strengthen elastin, leaving the skin healthier and brighter. It also improves the appearance of sagging skin and hyperpigmentation.

SILKPEEL/HYDRFACIAL *30 minutes*

*\$150 or \$360 for a package of 3
\$480 for a package of 4
\$720 for a package of 6*

This is a breakthrough treatment that combines non-invasive gentle exfoliation with an infusion of cool and soothing skin-specific solutions to improve and revitalize your skin. SilkPeel gives twice the results as standard microdermabrasion machines. This treatment allows you to experience clearer, refreshed skin with immediate, visible results and no downtime.

GENTLEWAVES PHOTOMODULATION

\$25 or \$200 for package of 10

With the GentleWaves Skin Fitness System, you can restore & maintain healthier, smoother, softer & better looking skin. Through the process of LED Photomodulation, GentleWaves both corrects skin appearance & helps minimize signs of aging over time. Let GentleWaves provide the ultimate workout for your skin.

Acne Treatment *14 minutes*

\$150 or \$500 for a package of 6

DERMAPLANING

\$75 or \$360 for a package of 6 \$50 Add-on

Dermaplaning is wonderful for exfoliating the skin and for those that have peach fuzz on their face. It removes this along with dead skin cells, resulting in healthier looking skin. This treatment is great for someone who has sensitive skin or facial hair that does not respond to laser hair removal. Removal of this outer layer of dead skin cells and fine hair enhances the penetration and speed of your personal skin care regimen. It also prepares the skin for other aesthetic procedures such as SilkPeel, Chemical Peels and Facials.

Dermaplaning is usually only performed on the face and generally excludes any blading of the nose, eye lids, neck, or chest. It is recommended that the procedure be done every 3 to 4 weeks (or once a month). After the treatment, your make up will go on better and your skin will be very smooth. This is a no downtime procedure.

DERMAL NEEDLING *60 minutes*

\$300 or 960 for a package of 3

The Collagen P.I.N., a revolutionary device that introduces a controlled wound into the skin triggering a release of natural growth factors, new collagen & elastin. This process causes much less damage to the epidermis than dermal rolling or lasers and other ablative treatments, which helps to protect the new skin cell growth providing for quicker healing and a much higher success rate for overall and longer lasting results.

**Each package includes 3 dermal needling sessions, 3 GentleWaves and ReGenica Post Procedure product*

DERMAL NEEDLING with PRP: The Vampire Facial

90 minutes

*\$750 or \$1950 for a package of 3**

Combining Platelet Rich Plasma, PRP and Dermal Needling sets your skin to transform from the inside out. PRP has been used in sports medicine for several years to restore collagen and elastin. It is a clear substance that houses your stem cells, growth factors and signaling proteins, as well as 30 bio-active proteins that amplify the healing response.

Dermal Needling with your own PRP will restore your skin to a more youthful appearance with improvement in texture, lines and wrinkles, skin laxity, hyperpigmentation, enlarged pores, acne scarring and more. Results will be seen in as little as two weeks, but will continue to improve over the course of several months as your collagen and elastin regenerate.

**Package includes 3 treatments sessions, 3 GentleWaves and Post Procedure products.*

Ageless Skin Programs

These customized, comprehensive treatment plans and product systems begin with a skin care consultation and will take you from start to finish. Chemical Peel Treatments

CHEMICAL PEEL TREATMENTS

SALICYLIC PEEL 45 minutes

\$75

Salicylic Acid is used to accelerate healthy cell turnover. Acne-causing bacteria will be diminished with salicylic acid. Let your certified aesthetician consult with you to determine which chemical peel will bring you the best results.

GLYTONE PEELS 30 minutes

Glytone puts remodeling ingredients where you want them, not where you don't. Many peels only affect surface layers of skin. Glytone by Enerpeel patented technology allows key ingredients to go deep into the skin where skin remodeling happens. The result is even treatment, consistent skin remodeling and fewer side effects.

Eye & Lip

\$200 or \$640 Package of 4

Based upon your skin's characteristics, phototype and post-procedure care, the results may include:

- > Significant increase in skin firmness around eyes and lips
- > Decrease in fine lines, wrinkles, and coarse crow's feet around eyes and lips
- > Decrease in dark circles
